REPORT OF COUNCIL

To the Members, at the Annual General Meeting, Wednesday, February 22nd, 1893.

I. SESSION 1891-92.

PUPILS AND FEES.

The entire number of Pupils during this Session was 1467, being a decrease of 73 on that of the preceding Session. Of these 928 were Students in the College, and 539 Pupils in the School. Of the Students, 369 belonged to the Faculty of Medicine, 107 being new Students: in the Faculties of Arts and Laws and of Science there were 559 Students, 334 being new Students. The largest number of Boys in the School in any one Term was 459.

As compared with the preceding Session these figures show an increase of 3 Students in the Faculty of Medicine, and an increase of 7 in the new Students. In the Faculties of Arts and Laws and of Science there was a decrease of 43 Students, and an increase of 13 in the new Students.

The Fees received (exclusive of those for Clinical Instruction) amounted to £24,306 19*s.* 6*d.*, being £2,449 2*s.* 6*d.* less than in the Session 1890-91.

The details for the two Sessions compared were as follows:—

	1891-92.			1890-91.		
	£	*s.*	*d.*	£	*s.*	*d.*
Faculty of Medicine	4,938	13	6	5,503	1	0
Faculties of Arts and Laws and of Science.....	8,540	14	0	9,551	17	0
School	10,827	12	0	11,701	4	0
	£24,306	19	6	£26,756	2	0

In addition to the above-stated amounts, the sum of £1,691 0*s.* 6*d.* was received for Clinical Instruction in the Hospital, making a total of £6,629 14*s.* 0*d.* paid by Students of the Faculty of Medicine in the Session.

The share of fees paid to Professors, Teachers, and Masters amounted to £17,020 7*s.* 6*d.*

SCHOOL.

The returns which have been laid before the Council show that the discipline of the School remains in a satisfactory state.

The Juliana de Rothschild Prize of £20 for the candidate from the School who should obtain the highest place in the Honours Division at the June Examination for Matriculation in the University of London, was given originally by Mrs. Isaac Cohen in memory of her daughter, the late Baroness Mayer de Rothschild. Since Mrs. Cohen's death her daughter, Miss Lucy Cohen, has offered to continue giving the Prize from year to year. It was awarded last year to E. D. M. Neumann, who gained the fourth place in the Honours Division.

In 1892 25 pupils passed the Matriculation Examination of the University of London; one of them, E. D. M. Neumann, obtaining the 4th place and the prize of £10.

The following Table shows the number of boys in the School in each of the three Terms of the last five Sessions:—

	1st Term.	2nd Term.	3rd Term.	Average for the year.
1887–88.....	505	500	514	506
1888–89.....	513	514	498	508
1889–90.....	490	483	490	488
1890–91.....	474	488	498	487
1891–92.....	454	459	446	453

From the Tables submitted it appears that 25 boys were entered in the Black Book last Session, the total number of entries being 35.

Four Scholarships, defraying half the cost of admission to the School for three years, will in July be offered for competition among boys between the ages of twelve and fourteen, whether already in the School or not.

THE BRANCH SCHOOL.

The Preparatory School at Hampstead is making satisfactory progress under the Head Master, Mr. C. Simmons. There are at present 59 young boys there, and, considering that the School has only been in existence for eighteen months, the result seems creditable. It is hoped that the numbers will increase to 80 or 100, and so recoup the College for the loss hitherto incurred by the establishment of the School.

II. GENERAL FINANCES.

The excess of expenditure over receipts for the past Session was £2,981 6*s.* 3*d.*

The fact that the College share of the fees paid by students, and by pupils in the School was £1,200 less than in the previous session accounts for nearly half the deficit, while the net loss on the Branch School, amounting to £700, and the legal expenses of prosecuting the Gresham Charter before the Privy Council, which amounted to £545, are responsible for most of the balance.

There was at the end of the Financial year a debt of £2,993 11*s.* 9*d.* on the Building Fund account.

III. THE CURRENT SESSION.

The entries of Students to February 1st, 1893, have been as follows:—in the Faculty of Medicine, 280, of whom 67 are new Students; in the Faculties of Arts and Laws and of Science, 621, of whom 377 are new Students and 204 Students in the Slade School: in the School, in Michaelmas Term, 416, of whom 58 were new pupils; in the present Term, 416, 42 being new pupils.

There are 59 Boys in the Branch School at Hampstead.

The College Fees received to February 1st are £3,602 0*s.* 6*d.* in the Faculty of Medicine, and £7,902 16*s.* 6*d.* in the Faculties of Arts and Laws and of Science.

DEATHS OF MEMBERS OF THE COLLEGE.

Dr. Allon.
Mr. J. T. V. Hardy.
Dr. Hirst.
Viscount Sherbrooke.
Dr. Walshe.

PROFESSORIAL APPOINTMENTS.

After the regretted death, early in last year, of Professor Goodwin, who for a few years had held in conjunction the Chairs of Greek and Latin, the Council decided to recur to the former custom of the College, and to appoint a Professor of Greek and a Professor of Latin.

Mr. Wyse, Fellow of Trinity College, Cambridge, and Mr. Housman, formerly Hertford Scholar in the University of Oxford, have been appointed,—the first to the Chair of Greek, the second to that of Latin.

Professor G. Croom Robertson, who had held the Grote Professorship of Philosophy of Mind and Logic since the year 1866, resigned his Chair, owing to ill-health, at the close of last Session, and his resignation was soon followed by his death. With reference to Professor Robertson's resignation, the Council passed the following Resolution :— ,

> "That the Council has heard with very sincere regret that Professor Croom Robertson finds it necessary to resign the Chair of Philosophy of Mind and Logic which he has held with so much distinction and so much benefit to the College for more than twenty-five years, and records its thanks to him for his long-continued and valuable services to the College."

Mr. James Sully, LL.D., has been appointed to succeed Prof. Robertson.

Two resignations took effect at Christmas. Professor Beesly had held the Chair of Ancient and Modern History since 1860 with great advantage to the College. On his retirement the Council gladly acceded to the suggestion of the Senate to confer on him the title of Emeritus Professor. Mr. F. C. Montague, Fellow of the College and of Oriel College, Oxford, has been appointed Professor of History. Prof. Legros succeeded Mr. Poynter, R.A., as Slade Professor in 1876. To these two distinguished painters the Slade School of Fine Art owed its early reputation and its long-sustained success. Prof. Legros having retired at Christmas, after more than 16 years' service, the Council appointed Mr. Fred Brown, well-known as Master of the Westminster School of Art, as the third Slade Professor.

Mr. Arthur Barker, Surgeon to the Hospital, has been appointed Professor of Clinical Surgery in the place of the late Mr. Berkeley Hill.

Mr. W. M. Flinders Petrie, D.C.L., has been appointed to the recently founded Edwards Professorship of Egyptology.

THE TEACHING UNIVERSITY.

It was hoped last year that the Charter of the new Teaching University in and for London, promoted by the College in conjunction with King's College, the Medical Schools, and the Joint Grand Committee of Gresham College, under the name of the Gresham University, would during the year be established. This expectation has, the Council regret to say, been at the last moment disappointed, and the issue of the Charter delayed, owing to opposition unexpectedly encountered from the Victoria University of Manchester, acting in conjunction with the Provincial Medical Schools of Birmingham, Bristol, and Sheffield, the representatives of some teaching Institutions in London, the Committee of Convocation of the University of London, and the London Society for the Extension of University Teaching. This opposition culminated in a deputation to the Prime Minister on 3rd March last, which was attended by a large number of Members of Parliament, the great

majority of whom appeared in defence of the alleged local interests of the Victoria University. As a consequence, the Council were informed that the Government had resolved to issue a Second Royal Commission of Inquiry, to which the Charter would be remitted for further consideration, with the intention that it should be reported again to the Privy Council, with amendments if necessary, and that the efforts and outlay of the College in obtaining it might not be thrown away. Accordingly no opposition was offered, by the Members of Parliament who had undertaken to defend the Charter in the House of Commons, to a motion by Mr. Bartley, M.P., that an address should be presented, praying Her Majesty to withhold Her assent to the Charter until it had been remitted, for this purpose, either to the old Royal Commission, or to a new Commission. On April 30 a new Royal Commission was issued, with power "to consider, and if they think fit alter, amend, and extend the same, so as to form and report a scheme for the establishment under Charter of an efficient Teaching University for London." This Commission is still sitting, and the case of the College was partially presented in evidence last July by the President, Sir George Young, and Professor Ramsay. The Council have been assured that the Commissioners will, before closing the inquiry, hear the further evidence that will be offered on their behalf. They are confident that the objections which were raised to the Charter can either be proved untenable, or else easily met by amendments in detail, neither inconsistent with the interests of the College, nor detrimental to the efficiency of the University.

ENLARGEMENT OF THE COLLEGE.

It was stated in the last Report that the Council had come to the conclusion that it was absolutely necessary to provide adequate accommodation for the departments of Physics and of Mechanical and Electrical Engineering. The Physical laboratory then contemplated has been erected on the south quadrangle, and has been in use since the opening of the present Session.

The Engineering laboratories are in course of erection fronting Gower-street, and it is expected that they will be ready for use next October.

Members of the College are reminded that the cost of these works, including fittings, was estimated in the last Report at about £20,000. Of this sum only £5000 has hitherto been subscribed. The Council therefore take this opportunity to appeal again for contributions to the Buildings Fund, and would beg those Members who have not already done so, not only to subscribe themselves, but also to induce others to contribute to the cost of the buildings now in progress.

DAY TRAINING DEPARTMENT.

The Education Department having granted permission to the College to receive a limited number of Queen's Scholars to be trained for the profession of Teaching, the Council appointed Dr. W. Mitchell, formerly of Aberdeen, to be Normal Master—in the first instance for two years. There are at present 12 Queen's Scholars working under Dr. Mitchell, and the Council expect that number to be trebled next October.

EVENING CLASSES.

Courses of free Evening Lectures on French and German Literature have again been given successfully by Professors Lallemand and Althaus respectively.

The tutorial Evening Classes have been discontinued in consequence of the small number of Students attending them, and of the very inadequate time which those Students were able to give to the preparation of the work of their respective Classes.

A practical Class in Chemistry has, however, been held in the evenings and has been fairly well attended.

FREE PUBLIC LECTURES.

The following Public Lectures were delivered in the Second term, and the Council are much indebted to the Lecturers for their services:—

"Taxes and Taxpayers." Henry H. S. Cunynghame, Esq., M.A.

"History and Literature." Professor John Nichol, M.A.

"The Concentration of Population in Cities; its Causes and Consequences." Professor G. V. Poore, M.D., B.S.

"What is £1?" Professor H. S. Foxwell, M.A.

"The Wisdom of the East." Professor T. W. Rhys Davids, LL.D., Ph.D.

"Ups and Downs of a Mountain Chain." Professor T. G. Bonney, D.Sc., F.R.S.

"Swift." Henry Craik, Esq., C.B.

THE BENTHAM MSS.

Owing to the liberality of Mr. Power Hicks, a Life Governor of the College, the Council were enabled to have the large collection of Bentham MSS. in the possession of the College examined, catalogued, and arranged. The whole cost of this useful work, namely £100, was borne by Mr. Power Hicks. On the recommendation of the late Professor Robertson, the task was entrusted to Mr. T. Whittaker, and the Council gratefully recognize the conscientious spirit in which that gentleman undertook and completed his work. A careful and lucid statement of the contents of the MSS. was furnished by Mr. Whittaker, and printed, and this, as well as the MSS. themselves, are now accessible to Students.

GOWER STREET ROADWAY.

The land lying between the College and the Hospital, of which the College held the freehold and the right of way, has been bought for the public use for £15,000 by the Vestry of St. Pancras, the London County Council contributing two-thirds of the purchase money. Sanction was given to this sale by the Members of the College at a special General Meeting held on Friday, July 15th, 1892. The Vestry have undertaken to pave the road with wood before opening it to the public, and the Council have reserved certain rights respecting a subway, should they desire to construct one at any future time.

It has been decided to invest the £15,000, after payment of expenses, for the benefit of the Hospital Rebuilding Fund.

ENDOWMENTS.

The late Miss Amelia Edwards, the well-known Egyptologist, founded by her will a Chair of Egyptology in University College, this being the first endowment of the kind in Great Britain. Miss Edwards also bequeathed to the College her very valuable library and collection of Egyptian Antiquities.

The College has received during the past year the sum of £10,000 from the Trustees of the late Mr. Richard Berridge for the advancement of the School of Hygiene: the Council are considering the best way of employing this Fund.

The Council report with satisfaction that H.M.'s Commissioners for the Exhibition of 1851 have placed at their disposal the nomination to a Scholarship of £150 a year, with the object of enabling Students "who have passed through a College curriculum to continue the prosecution of Science with the view of aiding in its advance, or in its application to the industries of the Country."

The College also benefits this year by the Jevons Memorial Fund, the interest on which for two years is paid to Owens College, Manchester, University College, London, and University College, Liverpool, in turn.

The Council have instituted a Jevons Studentship for Research, and have appointed as the first Student Miss Ada Heather-Bigg, who is engaged on an investigation into the Home Industries of London.

LIBRARY.

The Supplement to the Library Catalogue has been set up in type as far as the letter L. It contains the Barlow Dante, Grant Literary, Quain Law, Fine Art, and Chemical Library Catalogues, as well as the other additions acquired previous to 1887.

A list of additions during the five years 1887–91 has also been printed, and a list for 1892 is in preparation.

The Catalogue-printing fund, however, being the late Mr. Sharpe's donation of £1000, is exhausted, and the Council appeal to Members of the College to assist them, by subscriptions, to finish the printing of the Supplement. They have to acknowledge, with sincere thanks, a donation for this purpose of £20 from Miss Emily Sharpe.

The donations to the Library during 1892 were as follows:—

HOSPITAL.

The Hospital Committee with much regret have to announce the resignation during the past year of Mr. Augustus Prevost, who had occupied the position of Treasurer for 13 years, during five of which he was also Chairman of the Committee; but although Mr. Prevost has given up the particular offices referred to, the Committee still have the advantage of his presence and advice as an ordinary Member of the Committee.

The Council of the College have appointed Sir Douglas Galton, K.C.B., Treasurer of the Hospital, *vice* Mr. Prevost; and Mr. Henry Lucas has been appointed Chairman of the Committee.

The opinion often expressed by the Committee that the rebuilding and enlargement of the Hospital is becoming year by year more imperative was confirmed by the Architect's recent report upon the condition of the present building during the late repairs.

The Committee have therefore great satisfaction in announcing that the commencement of building operations is within measurable distance. Arrangements for the purchase of the freehold of the land in the rear of the Hospital have been nearly completed: the roadway between the College and the Hospital has been sold to the Vestry of St. Pancras for £15,000, which sum, after payment of expenses, will be appropriated by the Council to the re-building of the Hospital. Including this £15,000, about £28,000 in all have been received or promised for the Hospital Rebuilding Fund.

It is intended to hold a Festival Dinner in the course of three or four months, the entire proceeds to be devoted to the Rebuilding Fund in order that operations may be commenced forthwith. The Committee hope that the Public will come forward liberally with their donations and aid them to begin the building of the new Hospital upon a plan equal to the demands of the district and to the hygienic and scientific requirements of the day.

The Committee wish it to be understood that the work of rebuilding will not interfere with the reception of patients or with the clinical instruction given in the Hospital.

Mr. Marcus Gunn, F.R.C.S., has been appointed Assistant Ophthalmic Surgeon, and Dr. J. E. Paul has been appointed Resident Medical Officer *vice* Dr. W. W. H. Tate, whose term of office had expired.

Nine Beds and two Cots are now endowed and named, and the Committee venture to call special attention to this excellent method of perpetuating the memory of relatives and friends and of adding to the permanent income of the Charity. The income of £2,000 is considered sufficient for the support of a Bed or Cot, but the Committee will gratefully accept the endowment by instalments until the full amount has been reached.

Return of Services of the Members of Council from January 1st to December 31st, 1892, inclusive. Meetings of Council 16, of Committee of Management 21, of Senate 11.
